Backing Fabric	100%Poly
Width	140cm
Weight	170±15gsm
Feature	Yellow reflective

Item No	RG-6012 Fluorescent orange reflective fabric
Daytime color	Orange,customized
Reflective color	Orange,customized
Backing Fabric	100%Poly
Width	140cm
Weight	170±15gsm
Feature	Orange reflective

Item No	RG-6036 Red reflective fabric
Daytime color	Red,customized
Reflective color	Red,customized
Backing Fabric	100%Poly
Width	140cm
Weight	170±15gsm
Feature	Red reflective

Item No	RG-6050-NSF Nylon taffeta black reflective fabric
Daytime color	Black,customized
Reflective color	Black,customized
Backing Fabric	100%Poly
Width	140cm
Weight	185±15gsm
Feature	Black reflective,soft and good hand feeling

Silver reflective printing fabric
Rainbow reflective printing fabric:

The backing fabric material and color can be customized. We have the following 3 ways to make your customized reflective fabric:

- 1 . Buyers ship us their base fabric and we do the reflective printing on the provided fabric . The usual MOQ is 500meters . Most sports and outdoor brands prefer this way of cooperation .
- 2 . If you like the finished products in our catalog , we can make it for you . Usual MOQ is 500 meters and sometimes MOQ might be less because we keep some products in stock.
3. If you don't like the products in our catalog , but want us to supply finished products , we can source customized base fabric you want . MOQ depends on base fabric availability

Rainbow reflective fabric
Reflective outer shell fabric
Colored reflective outer shell fabric:

There are whole reflection types but fabric color, reflective effect, reflection etc are different.

- 1 . If you like the rainbow reflective effect , then choose the rainbow type
- 2 . If you need different colored reflective fabric , then choose the colored ones.
- 3 . If the normal grey color reflective fabric is okay with you, then you can choose the different quality levels . Normal grey reflective fabric's reflection is much brighter than rainbow reflective fabric and colored reflective fabric.
